

PRESENTS IN

APRIL
2016

FREE one-hour presentations at **10:00 am**

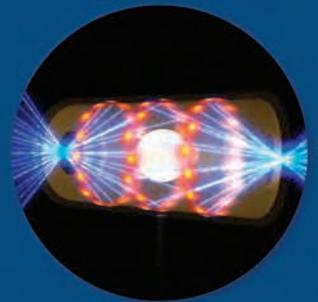

Intended for middle and high school students | The Grand Theatre, Tracy, CA

APRIL 23
Harnessing Fusion: Creating a Sun on Earth

Tammy Ma, PhD – LLNL Scientist
with Tom Shefler – Granada High School Teacher

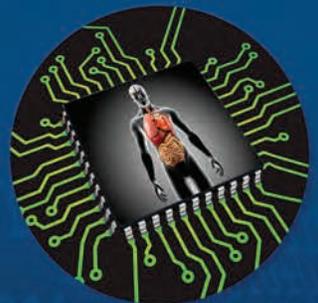

Scientists and engineers at the National Ignition Facility (NIF) are working hard to demonstrate sustainable fusion burn to one day harness as a source of limitless, clean energy.

APRIL 30
iCHIP: Human Physiology in the Palm of Your Hand

Elizabeth Wheeler, PhD and Monica Moya, PhD – LLNL Scientists
with Erin McKay – Tracy High School Teacher

Researchers at LLNL are using biology, 3D bioprinting, microchips and other technology to recreate human physiology outside the body.
